## WORK EXPERIENCE

---

**UI/UX Developer**  
**(MDP Infra Pvt. Ltd.)**

**Sept 2022 – Till Now**  
(Bhopal)

- Designed and developed interactive and responsive user interfaces for web applications.
- Ensured high performance and usability across devices and platforms.
- Implemented cross-browser compatibility for a seamless experience.
- Collaborated with designers and backend developers to integrate UI with APIs and ensure smooth user interactions.

**UI/UX Developer**  
**(Hiteshi Infotech)**

**March 2021 – June 2022**  
(Indore)

- Built reusable UI components and front-end libraries using React.js.
- Collaborated with back-end developers to integrate APIs and enhance functionality.
- Utilized Git for version control and followed best practices for branching and merging.
- Optimized components for performance, improving load times and responsiveness across devices.

**Junior UI Developer**  
**(Maestros InfoTech)**

**March 2019 – Feb 2021**  
(Bhopal)

- Supported senior developers in building modern web applications.
- Developed custom widgets using jQuery to improve interactivity.
- Troubleshoot and resolved UI issues across different browsers and devices.

- Assisted in converting legacy UI code to modern frameworks for better performance and maintainability.

## PROJECTS

---

### ✓ **QC Portal(<https://qcportal.mpcz.in/>)**

- Contributed to a monolithic web application for the Quality Control (QC) Portal, managing multiple modules.
- Developed RESTful APIs using Node.js and Express.js to handle data exchange efficiently.
- Integrated a role-based authentication system with session management to ensure secure access control.
- Implemented responsive UI components using EJS templating, enhancing usability across devices.

### ✓ **Aic banasthali I(<https://www.aicbanasthali.org/>)**

- The website is designed using HTML, CSS, and Bootstrap for a clean and responsive user interface.
- Data is managed through multiple API calls implemented using JavaScript across various sections of the site.
- The UI is optimized for cross-browser compatibility and is fully responsive across all devices.
